Balranald Shire Council embraces the inclusion of people with a disability in all aspects of community life. We are committed to creating a more inclusive and welcoming community for people with disabilities and it is with pleasure that I present the Disability Inclusion Action Plan.

The Plan demonstrates our commitment to improve the quality of our services, facilities, systems and programs over a three year period. The Plan was developed through consultation with the community and outlines the actions we will take to provide more accessible and inclusive services.

We look forward to hearing about the positive impact the Plan has for people with a disability in our Shire.

Cr. Leigh Byron
Mayor, Balranald Shire Council
Message from the General Manager

Disability Inclusion Planning is about supporting the basic right of choice for people with a disability in our community. People with a disability have the same right to choose how to live, work and enjoy community life as we all do.

Council’s aim is to ensure that our services, programs and facilities are inclusive. The Plan aims to improve conditions for people with a disability who live, work and visit our Shire.

I look forward to working with staff and our community to put our plan into action.

Aaron Drenovski
General Manager
Background
In August 2014 the NSW Disability Inclusion Act 2014 was passed. This Act requires Balranald Shire Council to develop a Disability Inclusion Action Plan to help remove barriers and enable people with a disability to participate fully in their communities.

Council’s vision is for an inclusive, respectful and diverse community where all residents and visitors enjoy a safe and friendly environment. Council’s Disability Inclusion Action Plan will aim to provide better access to Council information, services and facilities ensuring people with disabilities can fully participate in their community.

This Disability Inclusion Action Plan was developed through a community consultation and research process. A review of Council documents and Government policy took place and a staff / community survey was conducted.

The plan was endorsed at Council’s March 2017 meeting and placed on public exhibition. The Plan will be formally adopted by Council following the public exhibition period.

Legislation and Policy
International

The United Nations Convention on the Rights of Persons with Disabilities

The United Nations Convention on the Rights of Persons with Disabilities protects the rights of all people with a disability around the world. Australia was one of the first countries to sign the Convention when it was ratified in 2008. The convention acknowledges that people with disability have the same human rights as those without disability. This commits participating governments to ensure these rights can be exercised and that barriers are removed. The United Nations Convention of the Rights of Persons with Disabilities supports the social model of disability. This recognises that attitudes, practices and structures are disabling and can create barriers for people with disability from enjoying economic participation, social inclusion and equality which are not an inevitable outcome of their disability.

The Convention is guided by the following principles:
- respect for inherent dignity, individual autonomy including the freedom to make one’s own choices and independence of persons;
- non-discrimination;
- full and effective participation and inclusion in society;
- respect for difference and acceptance of persons with disabilities as part of human diversity and humanity;
- equality of opportunity;
- Accessibility;
- equality between men and women;
- respect for the evolving capacities of children with disabilities and respect for the right of children with disabilities to preserve their identities.

National

National Disability Strategy 2010-2020

Actions in the Implementation Plan that involve councils include improving Web Content accessibility, access to infrastructure, recreation, employment and community participation.

National Disability Insurance Scheme

The National Disability Insurance Scheme is a major reform that will deliver a national system of disability support focused on the individual needs and choices of people with disability. The National Disability Insurance Scheme gives participants more choice and control over how, when and where supports are provided.
State

Disability Inclusion Act 2014 (NSW)

The Disability Inclusion Act (2014) acknowledges human rights; promoting the independence and social and economic inclusion of people with disability.

The Act requires NSW government departments, local councils and some other public authorities to develop and implement a Disability Inclusion Action Plan. The plan must be consistent with the State Disability Inclusion Plan and include strategies to increase access and participation.

**Community Consultation**

Council advertised in local newspapers and also on local notice boards for interested community members to complete a questionnaire about how Council could make its Shire more inclusive for residents. Council staff also visited a number of people with disabilities to seek their feedback.

There was a series of questions in the survey asking the participants how the Balranald Shire can support and allow for people with a disability to fully participate in community life. Many of the questions asked in the survey were about council facilities and accessing them.

There were around 57 responses, men and women from the ages of 25 – 90 years, who completed the survey and gave their opinions on how the Balranald Shire Council can support those with a disability and their carers.

Key community responses highlighted the importance of being involved in the local community and having access to appropriate services and recreational and social opportunities.

The majority of challenges identified by participants related to mobility (in terms of navigating the built environment).

The answers in many of the surveys identified opportunities for Council to improve accessibility for those with a disability and included suggestions such as:

- Placement of braille signs on toilets could assist those with vision impairment;
- Installation of automatic doors on toilets and at key Council facilities could improve accessibility for those in electric wheelchairs;
- Improved layout of displays in Council’s Visitor Information Centre to make it easier for those with a walker to get around;
- Lowering counter tops at Council facilities where the general public interact with staff; and
- Improving accessibility of and ease of use of footpaths and parks in the Shire for those with a mobility scooter or walking frame.

The participants of the survey also identified a need for more disabled parking spots around the town.

Positive feedback was provided on how businesses within the Shire sought to employ people with a disability.
