

WASTE MANAGEMENT PLAN

SUBDIVISION, DEMOLITION, CONSTRUCTION & ON-GOING OPERATION PREMISES

To facilitate waste minimisation Council requires on-site sorting and storage of waste products pending re-use or collection.

The applicable sections of this table shall be completed and submitted with the development application or the demolition of a building.

Completing this Table will assist you in identifying the type of waste that will be generated and in advising Council how you intend to reuse, recycle or dispose of the waste.

The information provided on the form (and on your plans) will be assessed against Council's objectives (eg. to maximise re-use and minimise disposal) and the performance criteria for the particular use.

If space is insufficient in the table please provide attachments.
